

SELF-SERVICE COFFEE KIOSK SYSTEM

UML 2.5 Component Diagram — Layered / Client-Server Architectural Style (Lab 3 Handout)

Student: Subramani B M | SRN: PES1UG24CS473 | Section: H | Dept. of CSE, PES University

UML 2.5 NOTATION LEGEND (COFFEE KIOSK ARCHITECTURE):

- 5 Mandatory Components: Touchscreen UI, Order Manager, Payment Service, Receipt Printer Controller, Menu & Pricing DB; Architectural Style: Layered / Client-Server Kiosk Architecture with direct hardware interfacing.
- 4 Mandatory Interfaces: IOrderService, IPaymentProcessor, IPrinterDriver, IMenuData using Ball (Provided) & Socket (Required) notation.
- Security Advantage: PCI-DSS payment tokenization isolation; Performance Benefit: Local sub-second hardware execution.
